■ Summary:

I'm Truong Chau Hien, a newly-graduated student with a willingness to learn, and I want to become a full-stack developer.

■ Technical Skills:

Programming Languages:
- C# .NET, Java
- JavaScript
- HTML, CSS

Frameworks / Platforms:
- Spring, Hibernate
- Node.js / Express.js
- jQuery, Bootstrap

Database:
- MS SQL Server, MySQL
- MongoDB

Version Control:
- Git

Foreign Languages:
- English:
  - Good at reading technical documents.

■ Experience:

FoodTiny - A startup team.	*From 07/2017 to 08/2017*

Position: Fresher

Project: Native Library
- Project description: A open-source C/C++ library which provides Java Core classes in C++.
- Responsibilities:
  - Read Oracle's Java SE API specification document and OpenJDK's source code to understand behaviors of classes and its methods in Java, then implement these classes in C/C++.
  - Learn about concepts and how to use: git, unit test, CI, coverage, valgrind.

Pet Projects	*All the time*

Terraria Launcher - A system used to management TShock Server (of a famous indie game named Terraria).
- Programming Language: C# .NET
- Using RabbitMQ to communicate between components.

■ Education:

Viet Nam National University Ho Chi Minh City - University of Science	*From 09/2015 to Now*

- Mainly studying Software Engineering.
- Associate's degree (3 years).
- Good results at the university:
  - Current GPA is 8.5/10.
  - Favorite types of course: Web Development.
- Continue studying for bachelor's degree.

◼ Activities:

I usually read topics and tutorials on Medium, CodeProjects, and IT blogs. I also write knowledge gained from what I read into OneNote, help remember longer.
